If it presents no great problem for you, I would like a citation for Bennett's saying that Mullen had worked for CIA on Radio Free Cuba. I can t find the clip. I find letters, memos, citing the fact and the meaning but no more. I am using only a brief mention, so I do not need the clip itself. I fear mine is misfiled because a time-consuming search has bot turned it up. If you can do this without wasting much time, if you note it on this with my notation that I will be using it on p.11 of that chapter it will help me. Sorry and thanks. HW 6/4/74
